👤 About Me

I am a Graphic Designer and Next.js Developer with a Master's in Computer Science, specializing in UI/UX design and full-stack web development. I have experience building modern eCommerce solutions using Next.js, TypeScript, Tailwind CSS, Sanity, and Stripe while integrating logistics APIs like ShipEngine. My design expertise includes working on branding and school decorations for Bright Beginners School. Currently, I am developing Muniba e-Shop, an affordable eCommerce marketplace leveraging influencer marketing. I am passionate about merging design and technology to create engaging digital experiences.

🎓 Education

Masters in Computer Science
Virtual University   2020-2022

Bachelors in Computer Science

(SSGGC) Affiliated from Karachi University   2015-2018
